

VM BACKUP

Hyper-V | VMware

The Virtual Backup and Replication solution built for MSPs and IT departments.

Fast, fuss-free performance

Hassle-free and fast virtual machine backup in less than 15 minutes.

Best Storage Savings in the Industry

Lower storage requirements by over 65% with our **Augmented Inline Deduplication** technology.

Minimal RPO and RTO

Significantly reduce Recovery Point Objective (RPO) and Recovery Time Objective (RTO) through replication and CDP.

Finding a reliable backup and replication solution for Hyper-V and VMware is a real challenge. You risk spending a huge chunk of your budget on software that is bloated with features you don't need, that is hard to manage, and impossible to get support on.

We created a solid backup and replication solution that does what it says it will; is intuitive, easy to use and well-priced; and most of all, offers Lightning Fast Call Response as part of the package, with an average support call response of less than 30 seconds. Altaro VM Backup is a full-featured, affordable backup and replication solution for Hyper-V and VMware virtual machines, backed by an outstanding support team determined to help you succeed in protecting your environment.

More than 40,000 customers

Priced per host, not per socket

Praise-winning support team

More than 40,000 businesses worldwide trust Altaro to protect their Hyper-V and VMware virtual environments

Altaro VM Backup makes it easy to protect your Hyper-V and VMware virtual machines giving you advanced controls and the ability to create and execute a backup strategy you can rely on.

Backup

- Augmented Inline Deduplication - Reduce backup storage requirements on local/offsite locations, and significantly speed up backups
- WAN-Optimized Replication - VMs can be replicated to a remote site continuously, dramatically improving RTO.
- Continuous Data Protection (CDP) - back up VMs as frequently as every 5 minutes
- Concurrency - Run more efficient backup operations by allowing more VMs to be backed up at the same time
- Cloud Backup to Azure
- Backup Health Monitor
- Flexible Backup Scheduling
- Hot/Live Backups
- Offsite Backups over WAN/Internet
- Offsite Backups over LAN/Local Connection
- Fast and small backups
- Support for MS Hyper-V Clusters (CSV) and VMware vCenter
- Compression and military grade Encryption
- Retention Policies
- Grandfather-Father-Son Archiving (GFS)

Fast, Reliable Restores & Recovery

- Boot from Backup - Instantly boot any VM version from the backup location
- Instant Business Continuity - enable users to be up and running in minimal time should disaster strike by switching to a replicated VM.
- Restore clones - Can restore VMs to the same host but with a different name
- File Level Restore
- Exchange Item-Level Restore - Restore individual items from backed up VMs
- Restore VMs to a different host
- Sandbox Restore & Backup verification - Build and test a recovery plan to ensure you're covered when disaster strikes
- Granular Restore
- Fast OnePass Restores

Full Control

- RESTful API
- Integration with Connectwise Automate (LabTech)
- Intuitive User Interface

ALTARO CLOUD
VMBACKUP MANAGEMENT
CONSOLE

Altaro's ground-breaking Cloud Management Console (CMC) allows you to manage and monitor all your Altaro VM Backup installations from a single multi-tenant, online console.

Built for End Users, IT Resellers or MSPs, it offers:

- **Multi-tenancy:** Enables you to manage and monitor multiple hosts, customers (if you're an IT Reseller or MSP) or sites.
- **Real-time status updates:** View live operation activity and backup results as they occur.
- **Manage your Backups/Restores:** Start backups and restore VMs, configure Backup Locations, Offsite Locations and Encryption Keys, Set Default Locations, and much more.
- **Access portal anywhere:** There is no need for VPNs to be on-site.
- **Access to Altaro VM Backup for MSPs program:** IT Resellers can manage their Altaro MSP subscription invoicing, billing, etc.

	STANDARD EDITION €485 per host	UNLIMITED EDITION €595 per host	UNLIMITED PLUS €765 per host	MSPs Pay per VM perMonth
Number of Virtual Machines that can be backed up and restored per host	5 VMs per Host	Unlimited VMs per Host	Unlimited VMs per Host	Unlimited VMs, cost is per VM not per host*

Altaro VM Backup boasts best-of-breed augmented inline deduplication technology that significantly speeds up backups and reduces storage requirement. Its Boot from Backup makes it possible to boot any VM version from the backup location instantly, without affecting its integrity.

Specializing in and replication for virtualized environments, the latest version of our solution introduces WAN-Optimized Replication functionality, that permits a business to make an ongoing copy of its virtual machines (VM)s to a remote site and to switch to that copy with immediacy should anything go wrong with the live VMs, such as damage due to hurricanes, fires and flooding.

It's easy and quick to set up a solid backup strategy for your organization. Simply install the software and start your first VM backup in under 15 minutes. You don't need to be an expert to use, Altaro VM Backup, you don't need any additional software to run it, and pricing is just as straightforward.

Hassle-free and effective

Unbeatable Value

Outstanding Support

Satisfied clients

“ I have looked at Dell AppAssure, Symantec Backup Exec, Veeam Backup, Acronis, Overall, yours is just as good if not better, much more simple (and I like simple), and did I mention you have the best price also?

David Owen, IT Manager, The McNeely Companies

“ Altaro VM Backup is the best backup software I have ever used, you can go from downloading it to having a backup ready in 10 minutes. The support desk have been great, they answered any question quickly and effectively.

Simon Gay, Technical Consultant, Sicon Ltd.
